

THE GOAL, STATED AS MATH

From a D to a **B**, one component at a time.

Florida grades elementary schools on a percentage of 600 possible points. Wayman earned **205 (34%)** — a **D**. A **B** is **54%**. That's a fixed, knowable target: **+119 points**, and below is exactly where every one of them comes from.

TODAY	FLOOR · GRADE C	TARGET · GRADE B
205 /600 · 34% · D Up from an F (127 pts) last year	246 41% · +41 High confidence. The near-certain next step.	324 54% · +119 The stretch. Full plan, math turnaround led.

Last year's partnership already produced the school's largest possible one-year move: **+78 points, F → D**. The plan below is the sequel.

Where the 119 points come from

Each component is 100 points. Targets are ordered by size of the lift — the priorities read top-down.

COMPONENT	2026 NOW	TARGET	GAIN	PRIMARY LEVER
Math Learning Gains MATH	35	64	+29	ST Math + bottom-quartile growth through the PM cycle
Math Achievement MATH	26	50	+24	ST Math + a protected, focused daily math block
Grade 3 ELA READING · ONE GRADE	33	55	+22	Early-literacy intensive — a full 100 pts riding on ~25 kids
Science GRADE 5	25	45	+20	Repeat the focused-block model that already tripled it
ELA Achievement READING	32	48	+16	Tier-1 instruction + targeted small groups
ELA Learning Gains READING · STRONGEST	54	62	+8	Protect and extend this year's best result

COMPONENT	2026 NOW	TARGET	GAIN	PRIMARY LEVER
Total	205	324	+119	→ 54% of 600 possible points
Grade D · 34% → Grade B · 54%				

The realistic timeline

FLOOR · HIGH CONFIDENCE

Grade C — 246 pts

Reached largely on the math turnaround alone.
This is the year-one floor, not the ceiling.

TARGET · THE STRETCH

Grade B — 324 pts

The full plan, executed. If not in year one, it lands in year two — with C locked in year one either way.

The ask — three investments

- 1

ST Math — phased rollout
Year 1 launch, Year 2 expand — budget-smart. **Unlocks +53 pts** across both math components, the biggest pool on the board.
- 2

A progress-monitoring system
A named-student roster and standards-mastery tracker run on Florida's PM1/PM2/PM3 cycle. **Moves every component** — you intervene in October and January, not May.
- 3

Protected intervention blocks
Dedicated small-group time for the bottom-quartile students who drive learning gains. **Powers both gains components.** Plus continued executive coaching to run the weekly cadence.

The systems that produced F → D are already built. B is 119 points away — and every one of them has a *name, a component, and a lever.*

Targets are planning figures based on the 2026 component scores and Florida's elementary grading scale (A ≥ 62%, B 54–61%, C 41–53%, D 32–40%, F ≤ 31%). The Grade 3 ELA and both math targets are the heaviest lifts. Confirm the exact component set and per-grade enrollment against the official 2026 school report card before finalizing the ask.
